*Here to help
A voice for our community*

BACKING OUR SCHOOLS

The State Government should be allocating capital funding to schools, based on need, not the political affiliation of the area they are located in. Instead, it has been reported by the media that the State Labor Government directs ninety three percent of funding in inner city suburbs, to schools located in Labor electorates.

This is despite many schools in our community deserving funding. Sadly, our schools have been overlooked.

MORE POLICE RESOURCES

If you oppose the Labor Government reducing police resources in Bayside, use the QR code to sign the petition.

KEEPING OUR STREETS SAFE

We deserve to be safe, and feel safe, in our homes. Yet we know that our community has been victim to ongoing aggravated burglaries and home invasions. Sadly, the State Labor Government has ignored these crimes. The solution is simple. We need more police resources and a new Brighton Police Station. Instead, the Government has confirmed an intention to shut Bayside Police Station at night. James will continue speaking out, calling for more police resources.

STOPPING INAPPROPRIATE DEVELOPMENT

We need to put the brakes on inappropriate development, because we have the right to protect our amenity. The State Labor Government has announced its intention to take away the rights of the community to have a say in planning decisions. Progress is a natural part of life, but that doesn't mean we should allow our planning system to be government led.

James will always be a strong voice advocating to protect the amenity of our community.
